

Bunting instructions

1. Cut your bunting out in diamonds.
2. Fold along the green dotted line.
3. Glue together around a piece of string or twine.

One, two, three, four...

there beside the Fairy Door!

Five, six, seven, eight ...

A cunning trap. But you're too late!

Now through your home I duck and delve,
Before you've even got to twelve.

For full of mischief, they say I be.
You may seek

... but you won't find ME!!

't's true!...

...this merry day is done.
And through your home I sure have run.

But now the sun has left the sky,
The rainbow fades and I must fly.

And though we still are yet to meet,
I leave you here this little treat.

Because, I'm wise as I am old,
And see you have a heart of gold.

That is magic - true as true!

*There is no treasure more
loved than you*

How to use your letters

Leave the first letter next to your disturbed trap in the morning.
Then leave little hints of the Leprechaun through the house during the day.
Leave the second letter, with a little treat, by the door at bedtime.
